

ALTAIR® Pro CO Fire Single-Gas Detector

Is one clipped to YOUR medical bag?

Rugged, personal CO detector offers EMS personnel one-button operation, triple-alarm system, adjustable set points, and large, bright display.

MSA
The Safety Company

Vital decisions must be made quickly when a call involves a non-responsive victim. **Is carbon monoxide buildup to blame?** Don't be caught without your personal ALTAIR Pro CO Fire Single-Gas Detector. Small and lightweight unit alerts users to possible CO poisoning with no range of motion interference.

The ALTAIR Pro CO Fire Single-Gas Detector is ideal for other call types such as trench rescue, generator operation, and vehicle exhaust buildup, on the road or in the station. A great practical choice for EMS and other first responders, your CO detector should be standard gear in your medical bag.

standard gear

Tough rubberized housing for excellent impact resistance

Powered by commercially-available battery with built-in gas delivery adapter

Water-and-dust-resistant; rated to IP67

Great RFI performance

Single-button operation for alarm check, bump test, fresh air setup, and calibration

Large, clear, backlit LCD display

Adjustable alarm set points for Low, High, TWA, STEL

Triple-alarm system provides standard flashing LEDs, audible and vibrating

Built-in IR communication (event and standard data logging)

MSA Link™ Software displays logs, adjusts alarm set points, and disables/activates options

MSA's complete line-up of personal, single-gas CO detectors
